

PAPER BAG STARS

MATERIALS

paper bags (boxed or flat bottom work best)
string or fishing line
glue
scissors

1. For each star, you will need between six and ten bags - more for smaller bags, fewer for larger ones.
2. Keeping the bags, closed, glue the back of each bag in a T shape - down the centre and across the bottom
3. With the bags facing the same direction, place another bag on top, press in place.
4. Repeat steps 2 & 3 until you have the desired number of bags.
5. Once you have all the bags glued together, cut the corners off the top and triangles into the sides of the bags.
6. Open the bags to make sure the ends meet, add more if needed.
7. You can add glue to the top bag for added security, If you want to be able to take them down, and fold them away, leave the top layer unglued.
8. Open bags into a circle and hold sides together for a minute to let glue dry, if you are using glue.
9. Punch hole in the first and last bag where they meet, loop string through, and tie off.
